

## MSSM Website Updating Process

Author: Lisa Mosseau, Web Development Office

Modified Date: 8/18/10

### Current Options for Laboratories or Research Programs

1. Submit content updates to Marketing and they will do the updates in the Content Management System.
  - a. Example: [Frenette Lab](#)
  - b. Requirements: None.
2. Obtain space on [research.mssm.edu](#) in addition to a basic MSSM template. Users can maintain their own research site. Can be viewed externally and will be found on the internal MSSM search engine.
  - a. Requirements: Basic to Intermediate HTML, Basic FTP, Basic comprehension of Web standards.
3. Obtain space on [research.mssm.edu](#) and design a unique template. Users can maintain their own research site. Can be viewed externally and will be found on the internal MSSM search engine.
  - a. Example: [Soriano Lab](#)
  - b. Requirements: Basic to Intermediate HTML, Basic FTP, Basic comprehension of Web standards.
4. Develop a wiki or blog at [wiki.mssm.edu](#) to update projects and other relevant experience. Can be viewed externally but will not be found on the internal MSSM search engine.
  - a. Requirements: Basic Wiki Markup comprehension.
